VISWA R R

JAVA FULL STACK DEVELOPER

Phone:- +91 7604804446 | **Email** | **GitHub** | **Linkedin** | **PortFolio** | **LeetCode**

EXECUTIVE SUMMARY

Entry-level Computer Science and Engineering graduate with knowledge of Java, Spring Boot, Hibernate, SQL, HTML, CSS, and JavaScript. Seeking a Java Full Stack Developer role with a strong foundation in OOP, DSA, and DBMS. Experienced in developing web applications using REST APIs, JDBC, PostgreSQL, and MySQL. Familiar with Git, GitHub, and Maven, with strong problem-solving skills and a passion for building scalable applications

SKILLS

- **Programming Languages:** Java, SQL, HTML, CSS, JavaScript, TypeScript
- **Frameworks:** Spring Boot, Hibernate, Spring Data JPA
- **Frontend:** React.js, Bootstrap, Responsive Web Design
- **Databases:** MySQL, PostgreSQL, SQL, CRUD, joins
- **Tools:** Git, GitHub, VS Code, Maven, Postman
- **Concepts:** OOP, DSA, DBMS, System Design

SOFT SKILLS

- Leadership
- Teamwork
- Problem Solving
- Time Management
- Adaptability
- Communication

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering — **CGPA:7.52**
Dr. MGR Educational and Research Institute — (2022–2026)

Higher Secondary Certificate (HSC) — **PERCENTAGE: 70**
St. Mary's Higher Secondary School — (2021-2022)

Secondary School Leaving Certificate (SSLC) — **PERCENTAGE: 80**
St. Mary's Higher Secondary School — (2019-2021)

INTERNSHIP EXPERIENCE

Java Programming Intern – CodeOrbit Tech — Aug 2026 – Sep 2026

- Developed Java applications using Object-Oriented Programming (OOP) concepts, input handling, validation, conditional logic, and exception handling.
- Built console-based applications including Bank Account Simulation, Simple Calculator, and Student Grade Management System.
- Applied problem-solving and programming fundamentals to complete assigned tasks and project work.

PROJECTS

Night Motion Detection and Alert System using IoT

- Developed an IoT-based security system using ESP8266 NodeMCU, PIR sensor, and GSM module to detect human motion and send instant SMS alerts.
- Integrated a 16×2 LCD, buzzer, and LED for real-time monitoring and local alert notifications.
- Designed and tested the complete hardware prototype, ensuring reliable sensor integration, real-time monitoring, and efficient system performance.

Student Management System | React 19

- Developed a student management application using React 19 and Vite, with a component-based interface for managing student records.
- Integrated Axios with a REST API to create, retrieve, update, and delete student records.
- Used TanStack Query for data fetching, caching, and refreshing records after changes, helping keep the displayed data current.

Banking Management System | Java, Spring Boot, JPA, MySQL

- Developed a banking management application using Java 17 and Spring Boot, implementing backend web/REST functionality.
- Integrated Spring Data JPA and MySQL for database persistence and efficient management of banking data.
- Implemented input validation and OpenAPI/Swagger documentation to improve API reliability and usability.
